

Team name: Disc Finders

Members present: Corey Moura, Timothy Beler

Date: 11/15/2020

Time: 6:15 PM

Discussion points:

- Where are we currently
 - Display up and running with the compatibility to switch tags within the display.
 - Able to save unlimited amount of tags (as much as memory allows)
- Research cost estimates for the future

Goals for next week (include responsibilities)

- Contacting the professor for the final project requirements
- Experiment with multiple tags
- Allowing users to format different tags
