Feasibility Study and Research	ı																																									
RFID / UHF / NFC tecnology	9/18/20	9/26/20	9																																							
Available technology	9/18/20	9/26/20	9																																							
Rasberry Pie and piggy-backs	9/18/20	9/26/20	9																																							
Project Planning																																										
Requirements	9/25/20	9/30/20	6																																							
Specifications	9/28/20	10/5/20	8																																							
Design																																										
Generate Concepts	10/2/20	10/7/20	6																																							
Select Top Concepts	10/6/20	10/8/20	3																																							
Finalize Design	10/8/20	10/12/20	5																																							
Hardware																																										
Order Required Hardware	10/12/20	10/17/20	6																																							
Solder / Wire Hardware	10/18/20	10/20/20	3																																							
Implementation																																										
Read an RFID Tag ID	10/21/20	10/25/20	5																																							
Display Tag ID to Console	10/23/20	10/26/20	4																			N	1																			
Write tag name to EEPROM	10/26/20	10/30/20	5																																							
Read Tag Name From EEPROM	10/30/20	11/3/20	5																																							
Display Data to OLED	11/3/20	11/10/20	8																																							
GPIO Interrupt Via Ext. Switch	10/28/20	11/11/20	15																																							
Add Any Additional Features	10/28/20		15																															ш	ш							
Polish Final Project Features	11/28/20		10			\perp																	$\perp \perp \perp$															$\perp \! \! \! \! \! \perp$	\coprod		\perp	$\perp \perp \perp$
Prepare Final Presentation		12/14/20	8	\perp		_	4									-			\perp		-		+++											+	+					F		
Finalize Deliverables	12/14/20	12/18/20	5																																							2
